

Buffalo Christian Academy

Medical Information Form and Immunization Records Policy

Student Name: \_\_\_\_\_ Date of Birth: \_\_\_\_\_

Allergies: \_\_\_\_\_

\_\_\_\_\_

Any other medical conditions that you would like the BCA Faculty to know about: \_\_\_\_\_

\_\_\_\_\_

Notice of Medication Administration During School Hours:

No faculty member of Buffalo Christian Academy will administrate medication to a student. This includes all medication, over-the-counter medication, naturalpathic medicine, and cough drops. Students will be excused from class if a parent needs to come administer medication during the school day.

Immunization Records:

Buffalo Christian Academy requires the immunization records of all students according to Wyoming State Law as of 2019.

I have read, understood, and agree to comply with Buffalo Christian Academy's immunization records policy . I understand that if I fail to provide BCA with my child's immunization records within 30 days of registration, their enrollment will be revoked. (Two parent households, both parents/guardians sign)

**Wyoming Legislative Service Office Chapter 4-Pupils  
Article 1-Compulsory Attendance**

**21-4-309. Mandatory immunizations for children attending schools; exceptions.**

- (a) Any person attending, full or part time, any public or private school, kindergarten through twelfth grade, shall within thirty (30) days after the date of school entry, provide to the appropriate school official written documentary proof of immunization. For purposes of this section, documentary proof of immunization is written certification by a private licensed physician or his representative or by any public health authority, that the person is fully immunized. Documentation shall include month, day and year of each required immunization received against vaccine preventable disease as designated by the state health authority. No school administrator shall permit a student to attend school for more than thirty (30) calendar days without documentary proof of immunization. If immunization requires a series of immunizations over a period of more than thirty (30) calendar days, the child shall be permitted to attend school while receiving continuing immunization if the school administrator receives written notification by a private licensed physician or his representative or by a public health official, specifying a written schedule for necessary immunization completion within the medically accepted time period. Waivers shall be authorized by the state or county health officer upon submission of written evidence of religious objection or medical contraindication to the administration of any vaccine. In the presence of an outbreak of vaccine preventable disease as determined by the state or county health authority, school children for whom a waiver has been issued and who are not immunized against the occurring vaccine preventable disease shall be excluded from school attendance for a period of time determined by the state or county health authority, but not suspended from school as provided in W.S. 21-4-305. Children excluded from school attendance under this section shall not be counted in the aggregate number of pupils absent as defined in W.S. 21-13-101(a)(i).
- (b) The school administrator shall be responsible for an audit of the immunization status of any child enrolled in the school in accordance with rules and regulations prescribed by the department of health.
- (c) The written documented proof of immunization on a form provided by the state health officer shall be an integral part of the child's school record.
- (d) For purposes of this section:
  - (i) "State health officer" means the person appointed by the director of the department of health pursuant to W.S. 9-2-103;
  - (ii) "County health officer" means the licensed medical officer designated by the county commissioners to serve as health officer for his county;
  - (iii) "Immunized" or "immunization" means initial immunization and any boosters or re-immunizations required to maintain immunization pursuant to the immunization standards and recommendations issued by the state health officer.
